ADOPTION DAY

Big - Little Sister

Something new has been initiated by the Sophomore College Women which has officially been given the name of Adoption Day.

On this day the Big-Little Sister Program is officially put into practice as the Prima girls make an effort to be with their Secunda Little Sisters as much of the day as possible. This includes escorting them to meals, chapel, and then, in the evening to a party which climaxes as every Big Sis introduces and adopts her Little Sis.

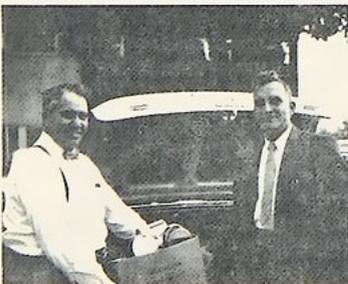

After an enjoyable program was presented by the Prima girls, a delicious lunch was served.

This year's Adoption Day was held September 19, under the direction of the Social Committee and Miss Judy Graebner, Mistress of Ceremonies.

FOOD FOR CONCORDIA

Mr. Koch, food chairman, reports that at the present time "Food for Concordia" is coming in quite slowly, but he said that some congregations have promised Concordia food in the near future, so we hope that there will be an increase in food donations to our school.

The picture shows Mr. Koch and Rev. Edgar Eifert from Waseca unloading some food that his congregation has given us.

Prof. Siebert Plans Study of Libraries

(From St. Paul Pioneer Press, September, 1956)

Prof. E. G. Seibert, librarian and veteran of more than 30 years on the Concordia College faculty, has finally taken a six-month leave of absence, after building the college library to more than 26,000 volumes.

Prof. Seibert left on what amounts to a "bus man's holiday." He will spend several months in studying and surveying library administration in a number of private colleges in the Midwest. Miss Margaret Horn of St. Paul is in charge of the Concordia library during Prof. Seibert's absence.

Prof. Seibert recalled the library situation which prevailed at the school 30 years ago.

"There was a single room in the basement of the dormitory, and the only books available for students included some fiction, some German language books, and one encyclopedia," he said. "The faculty had a good library, but

students dared not enter the faculty library on pain of expulsion."

"I finally prevailed upon the faculty to allow students to visit the faculty library during noon hours, but only upon observance of strict silence. At that time, the available volumes were not classified or catalogued. Ultimately the faculty and student libraries were unified, and now the new and modern Buenger Memorial library boasts more than 26,000 volumes. Additions to the library shelves are made each year through gifts of alumni and friends and through school purchases.

"Probably the most important gain in having a new library is the fact that it replaced the old library rooms which were next door to the piano practice rooms."

Prof. Seibert, who has two yrs. of active duty at the school before his retirement, will return to Concordia in January, 1957.
